

Tours in Indonesia, Malaysia, Borneo, Singapore and Brunei!

Dear Traveller ,

Thank you for choosing us to arrange your holiday in Malaysia.

In Your Program you have booked a Rental Car with us, However due to Technical Issue there are situation that the GPS system is not usable or is unavailable.

Thus we would recommend that you use the Map System (Google Map/Waze/Apple Maps) to navigate around when driving since these maps are more updated.

For your convince , we have prepared a and **Activated** a Local Sim Card for you usage here in Malaysia. This Card currently **Unlimited 3mbps Data** with a **1 month validity** that can be used in your Mobile Device as a replacement for the GPS System.
